To whom it may concern,

I got in contact with Secure Collections after my car was damaged in a hit and run. At the time, I was studying for my final year exams and didn't have the time or knowledge to locate the perpetrator.

Within 24 hours of contacting Secure Collections, I had the name and address of the owner of the vehicle, and within 1 week my damages had been recovered.

I was extremely satisfied by the service and outcome delivered, which was only possible thanks to Thomas and the work of Secure Collections Ltd. I will definitely use their services in the future, and would highly recommend them for anyone seeking professional debt recovery.

Yours faithfully,

Jared Newman
